

This architectural site plan illustrates the proposed urban layout for Via Corsica. The plan shows the street's alignment, including intersections with Via Emilia, Via Nisida, and Via Caleppe. Key features include:

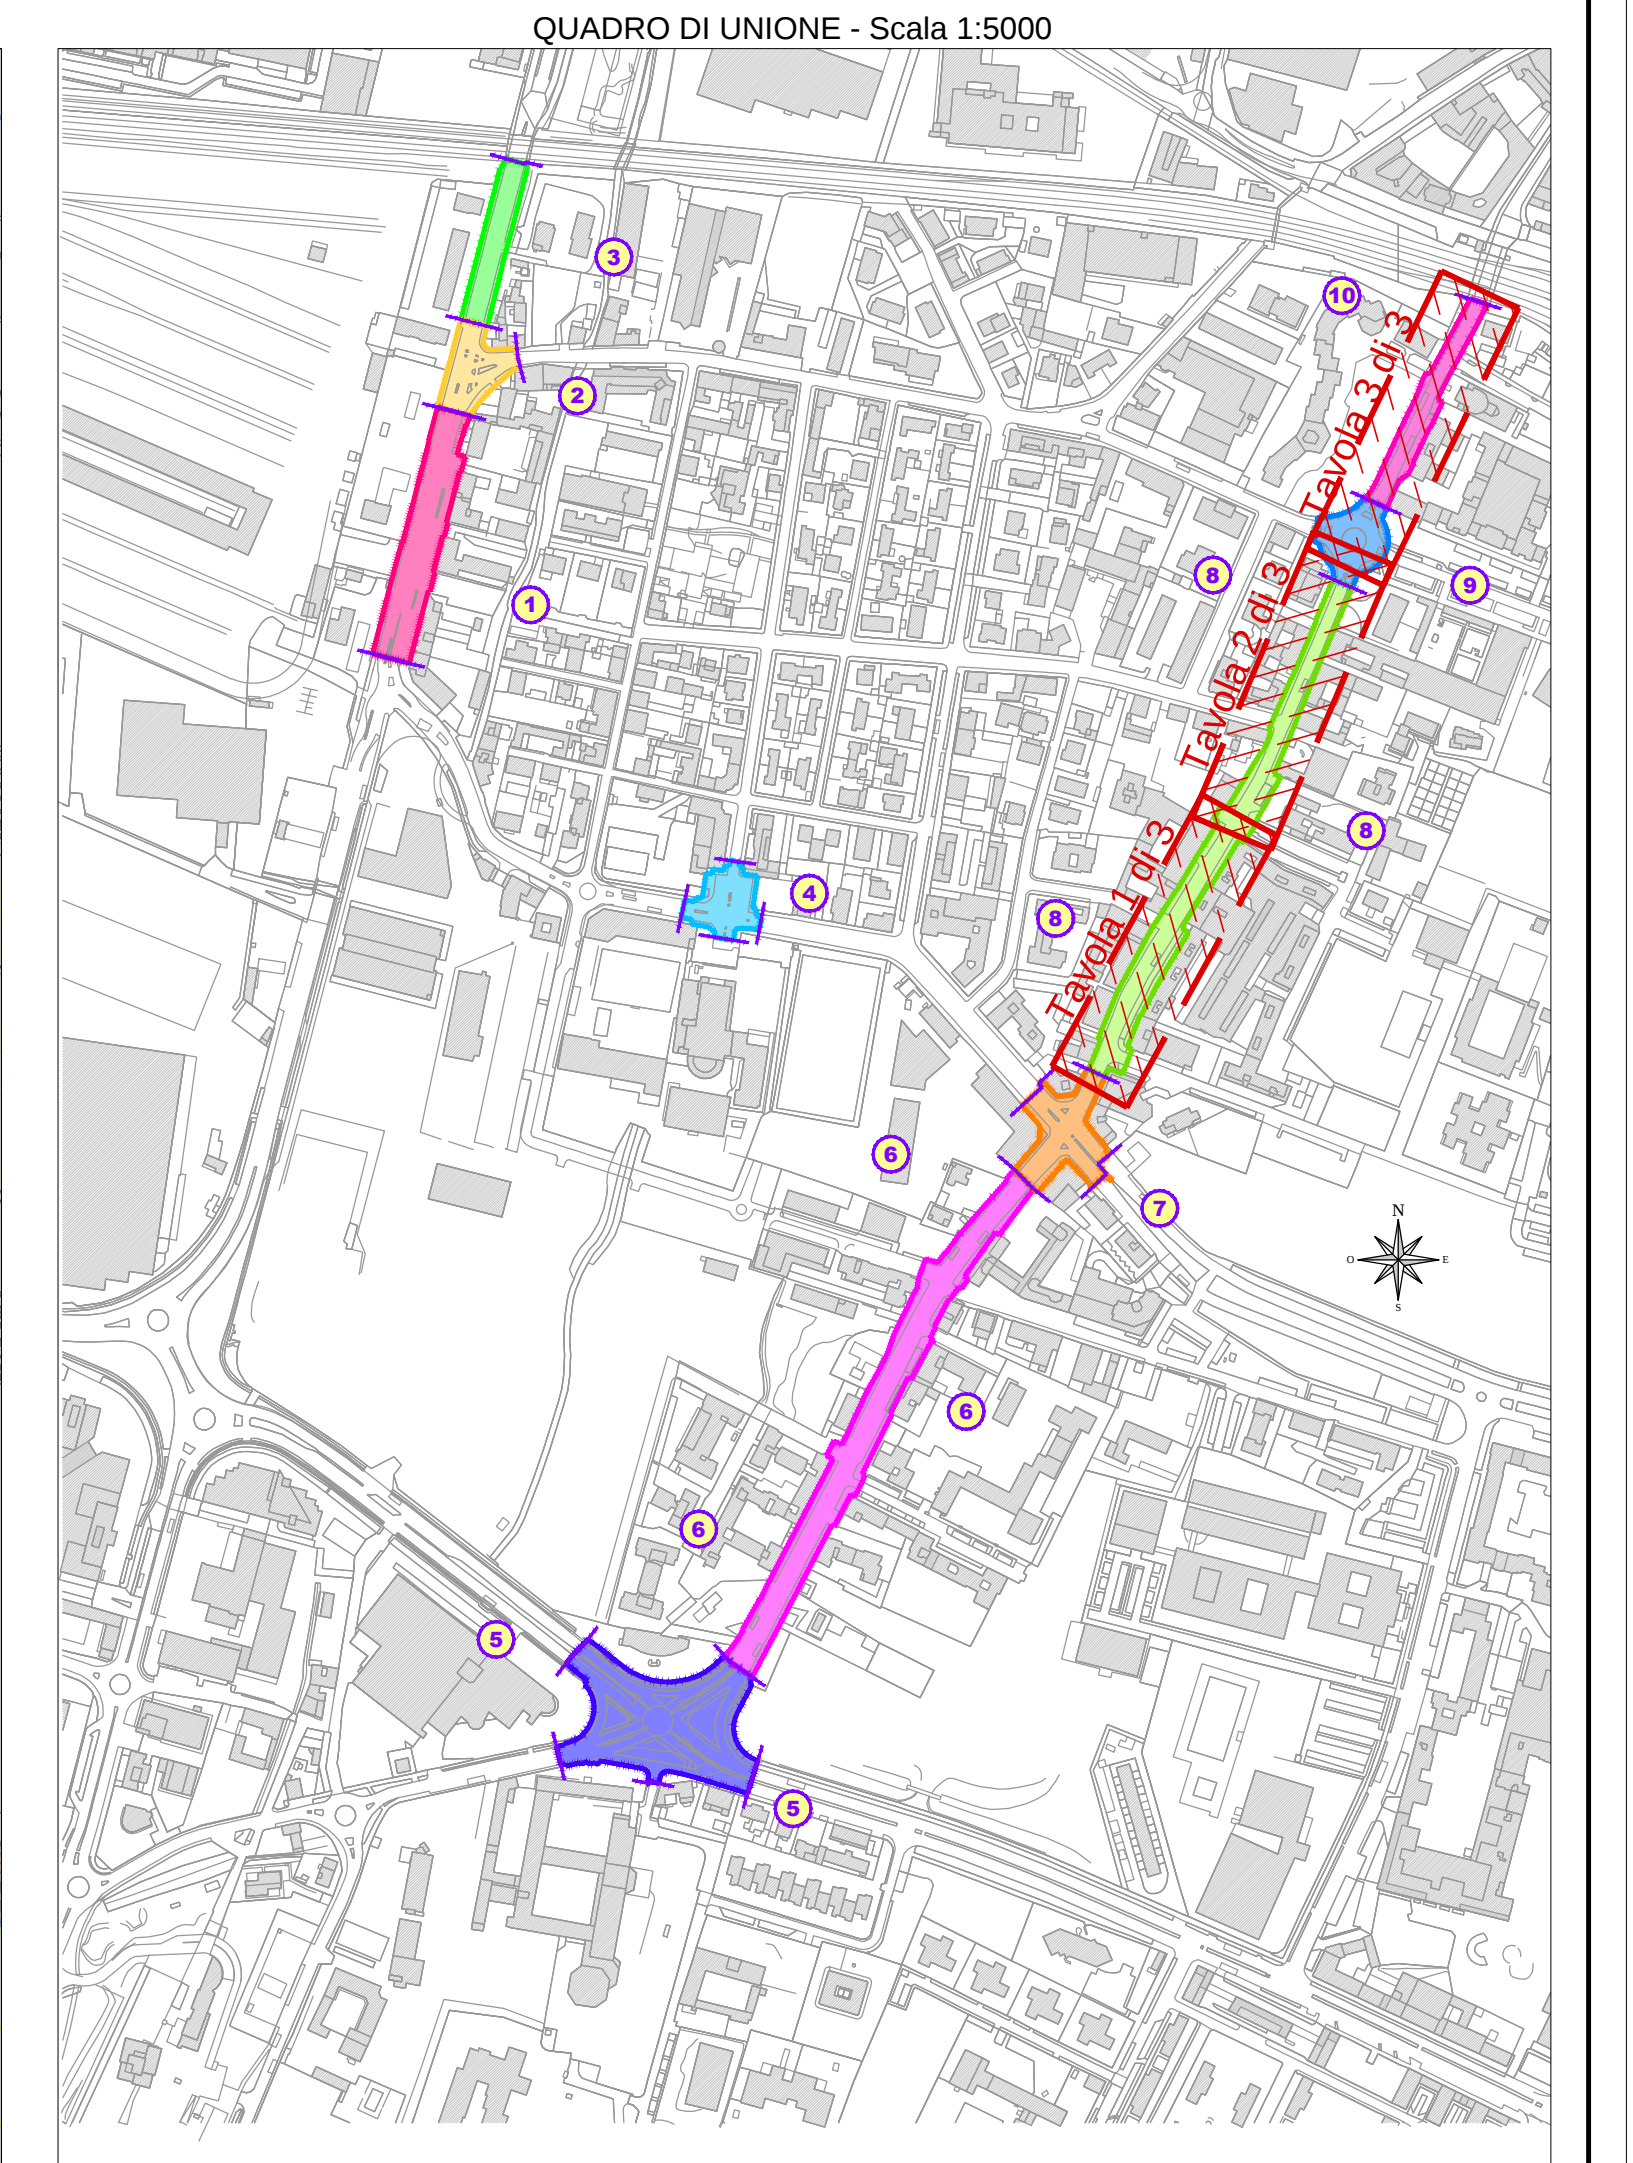

- Proposed Green Spaces:** Indicated by green hatched areas, showing tree planting locations and landscaped sidewalks.
- Proposed Pavement:** Shown with different hatching patterns for sidewalks, green spaces, and the main road surface.
- Proposed Building Footprints:** Represented by solid black outlines, showing the layout of buildings along the street.
- Proposed Infrastructure:** Includes a 'Fermata Bus' (bus stop) and a 'Marciapiede pedonale' (pedestrian crossing).
- Orientation:** A compass rose in the top right corner indicates North (N).

- ### LEGENDA OPERE DI PROGETTO

-

The map illustrates the proposed tramway system along Via Corsica. Key elements include:

- Tramway Corridor:** A central section with tracks and a bus stop labeled "Fermata Bus".
- Street Layout:** Via Corsica runs horizontally, with Via Sardegna on the left and Via Sostegno on the right. A bridge crosses the river in the center.
- Infrastructure:** Pedestrian crossings, a roundabout, and various colored zones (green, blue, red) indicating different types of urban planning interventions.
- Orientation:** A compass rose in the top right corner indicates North (N), South (S), East (E), and West (O).
